Description :

PDF-a897e | The convergence of smartphones, GPS, the Internet, and social networks has given rise to a playful, educational, and social media known as location-based and hybrid reality games. The essays in this book investigate this new phenomenon and provide a broad overview of the emerging field of location-aware mobile games, highlighting critical, social scientific, and design approaches to these types of... *Digital Cityscapes: Merging Digital and Urban Playspaces (Digital Formations)*
