Description :

PDF-1e1db | During the sixth and fifth centuries BC, Greek sculpture developed into a fine art. With the human figure as its main subject, artists worked to represent it in increasingly natural terms. This book explores the material aspects of Greek sculpture at a pivotal phase in its evolution. Considering typologies and function, an international team of experts traces the development of technical character... *Greek Sculpture: Function, Materials, and Techniques in the Archaic and Classical Periods*
